

# MINNESOTA UROLITH CENTER

*Compassion driven to shape the future!*

## OUR IMPACT

The Minnesota Urolith Center (MUC) has provided urolith analysis services for the veterinary community at no cost for more than 40 years. Our Urolith Center is the largest veterinary stone analysis laboratory in the world, utilizing state-of-the-science diagnostic techniques to provide quantitative urolith analysis. We also provide recommendations on urolith dissolution and risk management for canine and feline submissions.
