

Minnesota Urolith Center Online System - Searching for Results

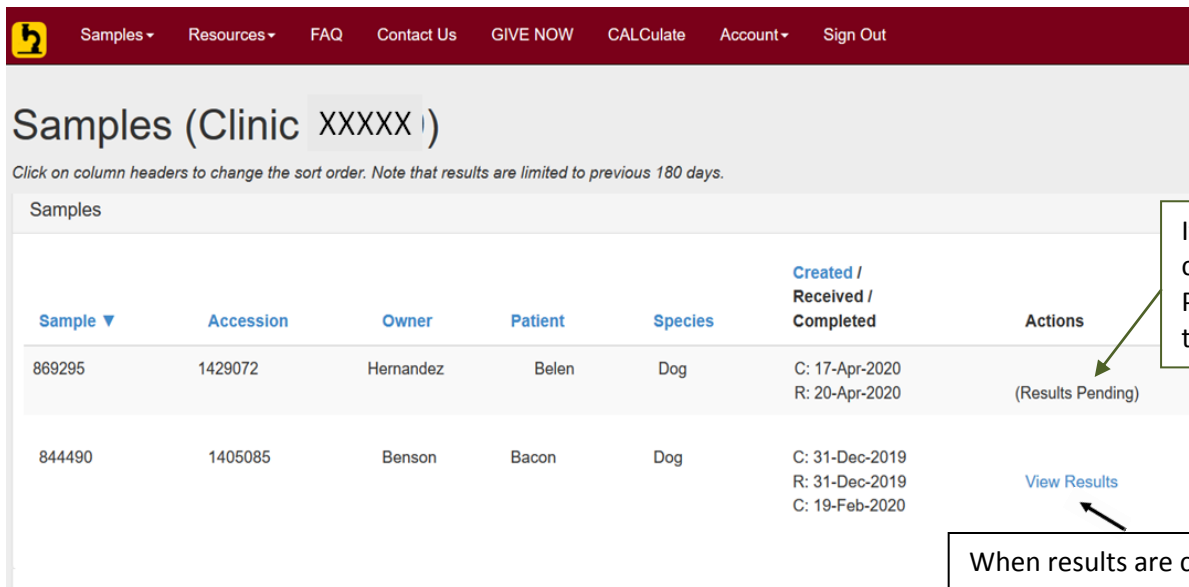

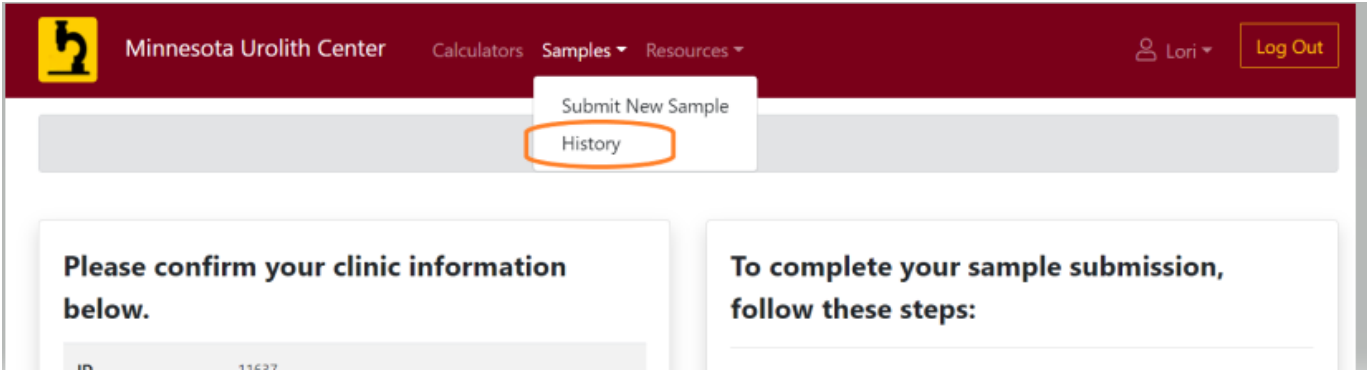

Overview

Login at our website urolithcenter.org to see when your sample has arrived and view/print results and recommendations at your convenience.

See "creating an online account" if you do not know your user name and password.

Search for Results

Login at urolithcenter.org, To search for samples, select **Samples** then **History**.

If results are not yet completed – (Results Pending) will be listed in the view results column.

When results are completed it will list View Results in the Actions column. Click View results to open a copy of the results.

Search. It will list samples submitted in the last 180 days. You can click on the column headers to change the sort order. If the results are completed [View Results](#) will be listed under View Results*. Click **View Results** and they will open as a pdf file. You can then view, print or save the results. Our laboratory report contains the quantitative analysis and general recommendations for patient management (if available) in a concise, one page report.

Reports are available for online retrieval for 6 months after submission. Contact the laboratory for at support@urolithcenter.org or call 612-625-4221 for older reports.
